

GREEN LINE

AUTOMATION FOR SHEET METAL PROCESSING

MILLUTENSIL®

Quality, Innovation
and Tradition

welcome
in Millutensil

a business with a big heart

Quality, innovation and tradition

Millutensil is a dynamic family business founded in 1955 that has always put its customer first, engineering innovative first-rate solutions based on their needs.

The company is known worldwide thanks to the renowned success of its installations.

A steadfast internationalisation process and active pursuit of new markets have characterised the

activity of MILLUTENSIL since its inception.

Persistent engagement with our customer propels us to meet their needs with innovative and tailored solutions.

Those who know MILLUTENSIL know that it is a business whose principal asset is heart.

Each customer is looked after with great care persevering to meet all provisions and urgency. Mutual growth with our customer is the essence of this partnership.

Emphasis on sustainable technology, energy efficiency, and safety at work are the goals of the **GREEN LINE** technology.

Green line

Concentrates the innovative and leading machinery for the sheet metal working industry. The GREEN LINE provides solutions for complete automation of the sheet metal working process. In addition to the feeding line and the cut-to-length line, MILLUTENSIL offers punching line, slitting lines and laser line.

Green Line integration

Integration for the GREEN LINE means synthesis of manifold process technologies. Millutensil's strategic solutions have always been comprised of much more than isolated machines, assuring its clientele an efficient and fully integrated production process, thanks to its state-of-art software calibrated to measure and achieve optimum proficiency. Our lines can be integrated with assorted production lines and technologies: including hydraulic and mechanical presses, transfer lines, complete automatic lines for the automotive and household industry, rollforming lines, and laser technologies.

Green Line automation

Automation for the GREEN LINE means performance of innovative solutions. Each stage of the project is intricately studied and benchmarked from its design through its execution. An interlatching architecture coordinates the most advanced applications, the machine settings centrally optimised.

Universal quality guaranty

Millutensil is recognised worldwide as a provider of first-rate solutions. The distinction lies in detail. Embarking from design, every project by MILLUTENSIL revolves around an acute level of quality.

Sales network and organization

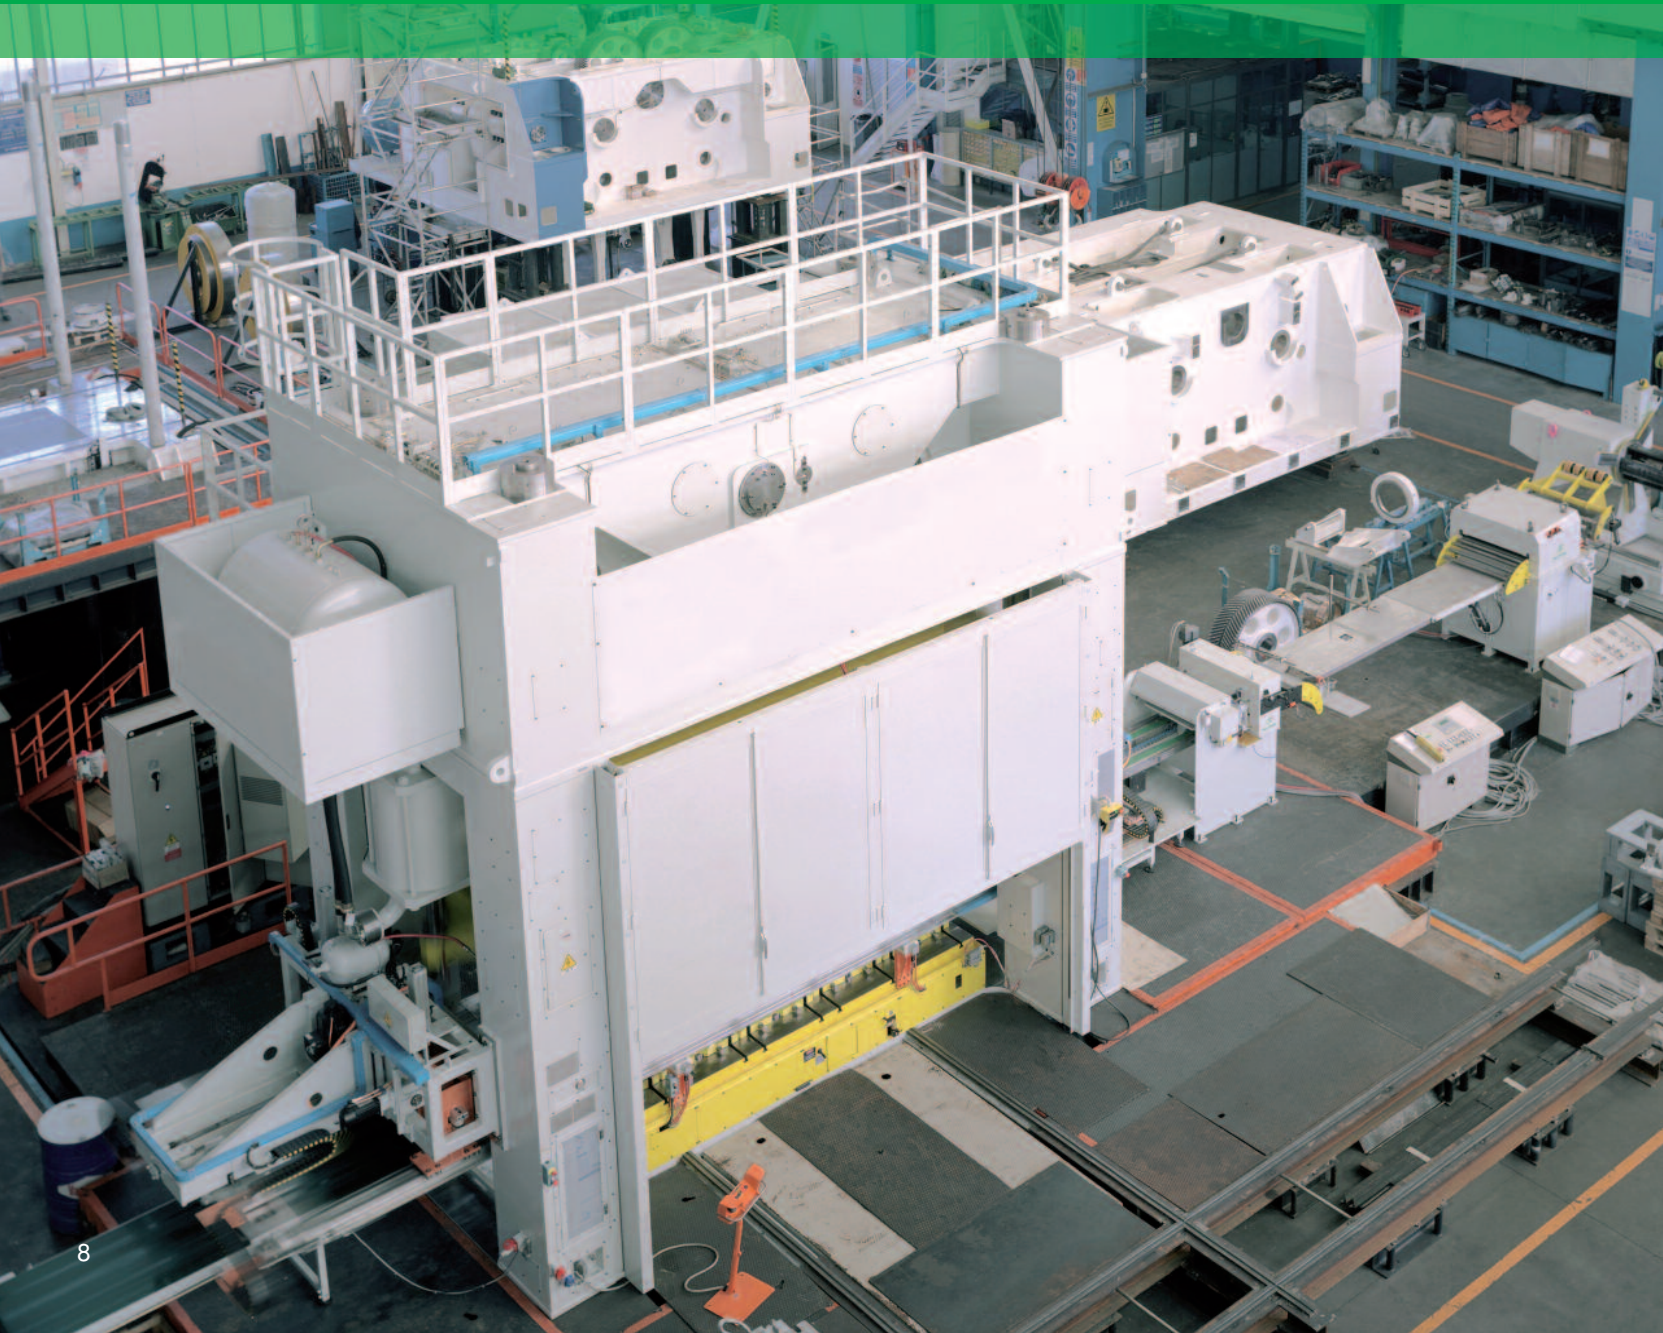

Millutensil is vigorously committed to increase its presence throughout the world, working to advance its sales network now active in 35 countries in 5 continents.

Customer service and training

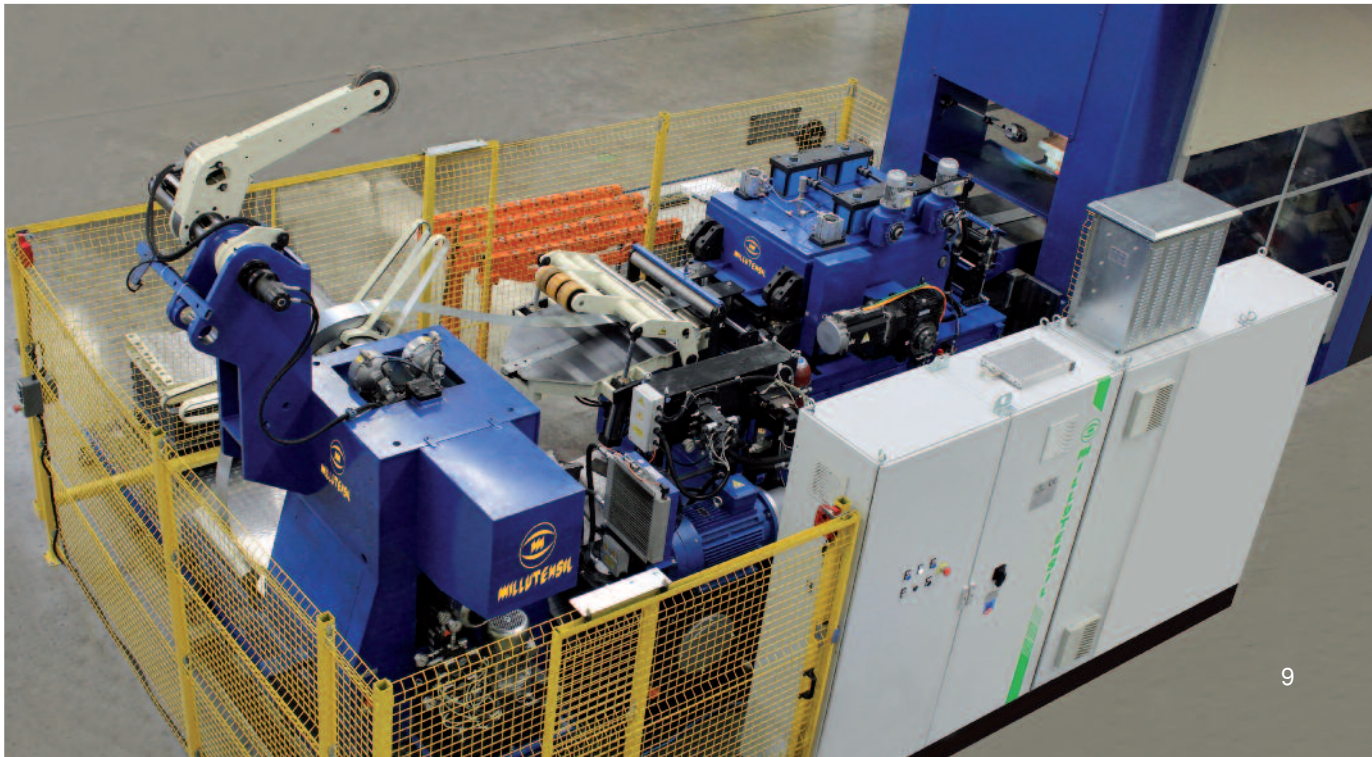

To work closely with our customer, a team of technicians is dedicated to each project's development, installation, and after-sale service. Teleservice and web-conference facilitate communication and after-sales support with our customer in real-time. For us, after-sale service is our stamp guaranteeing quality and reliability to customer.

Strip feeding lines

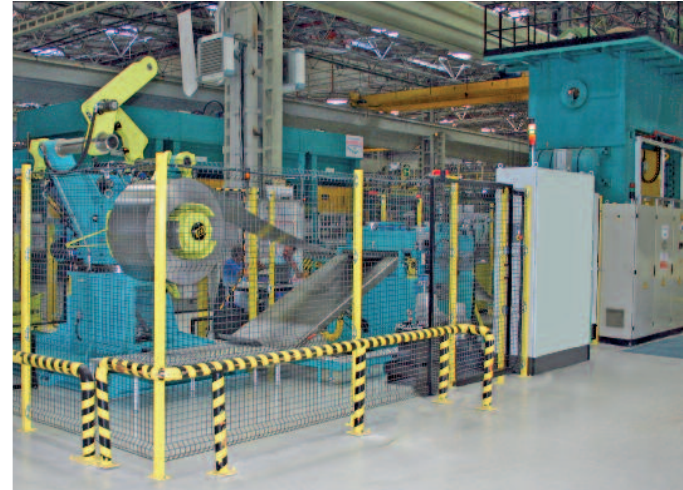

Mind + Technology
= Innovation

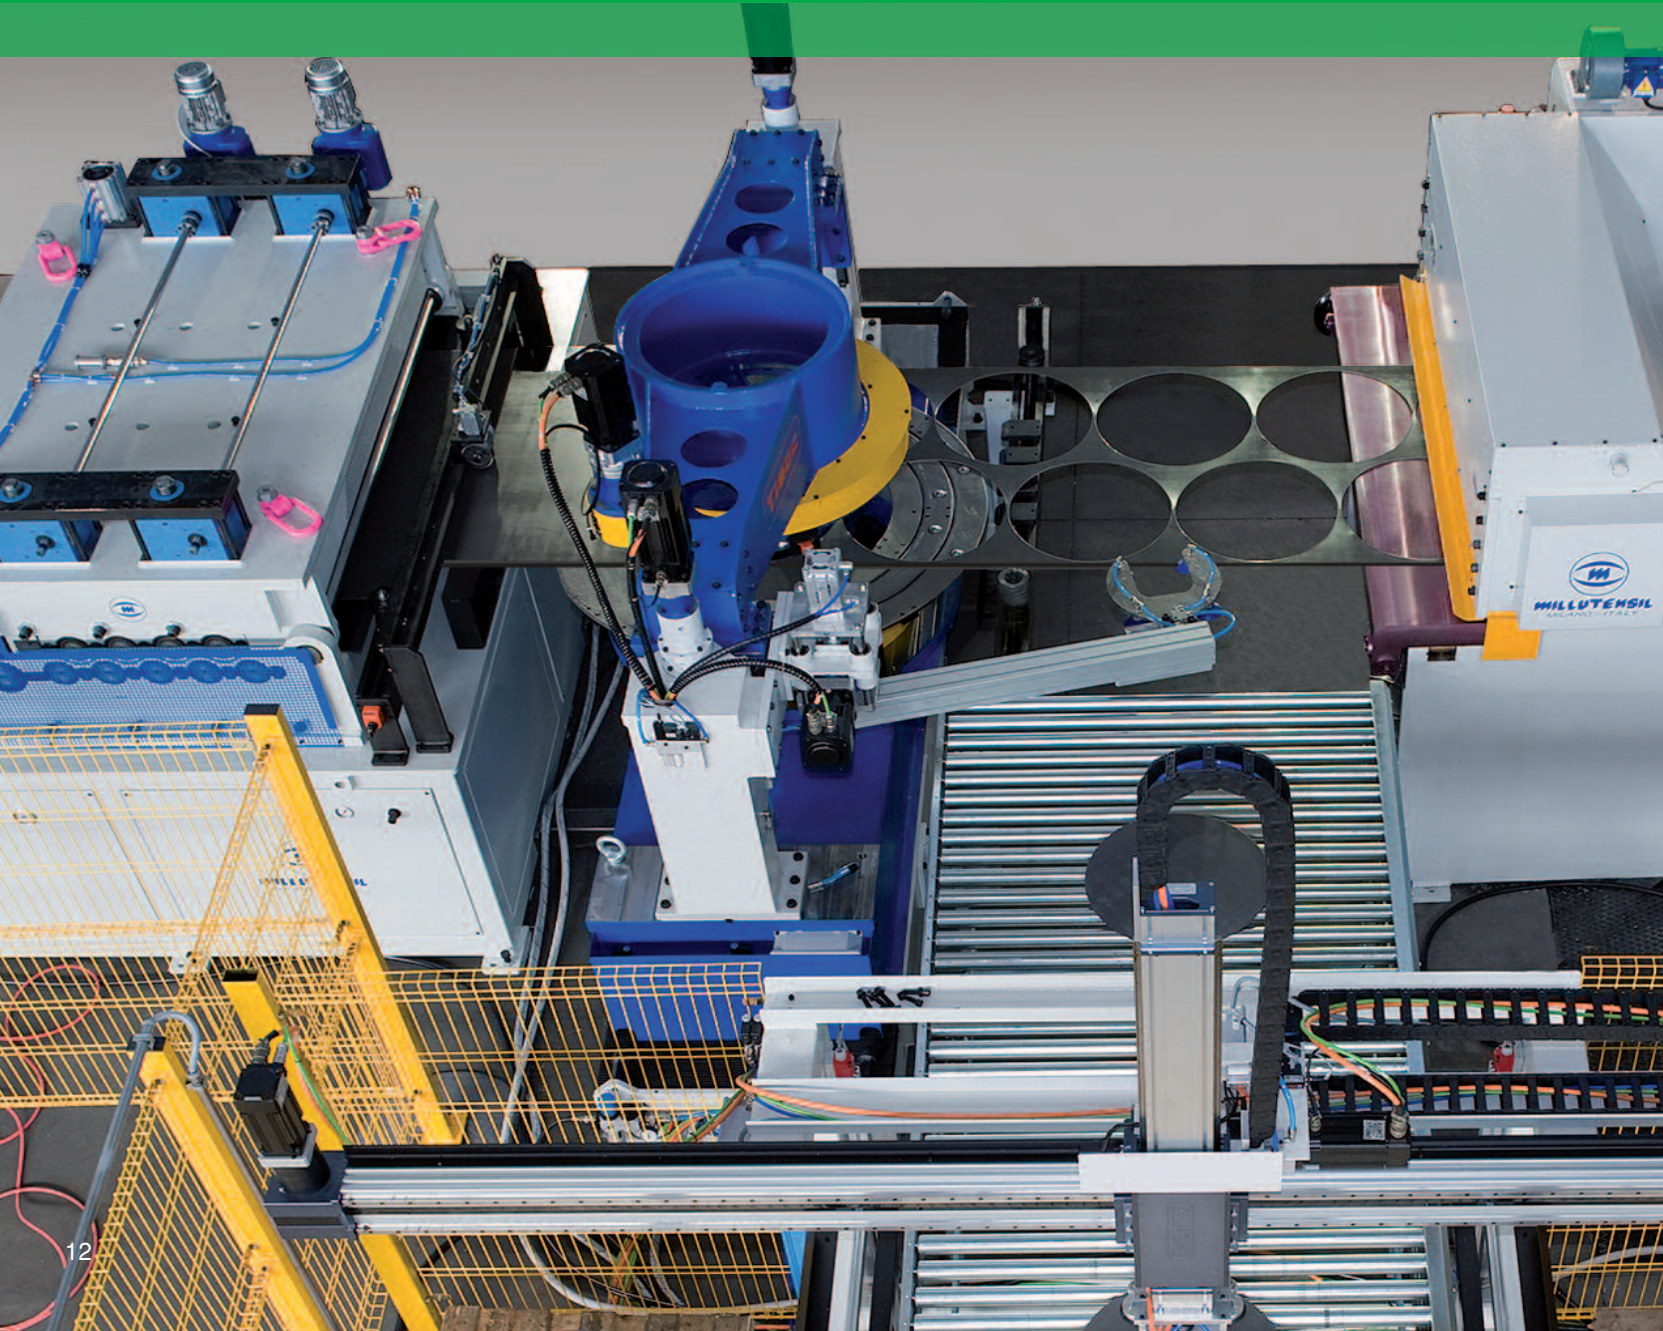

Strip feeding lines

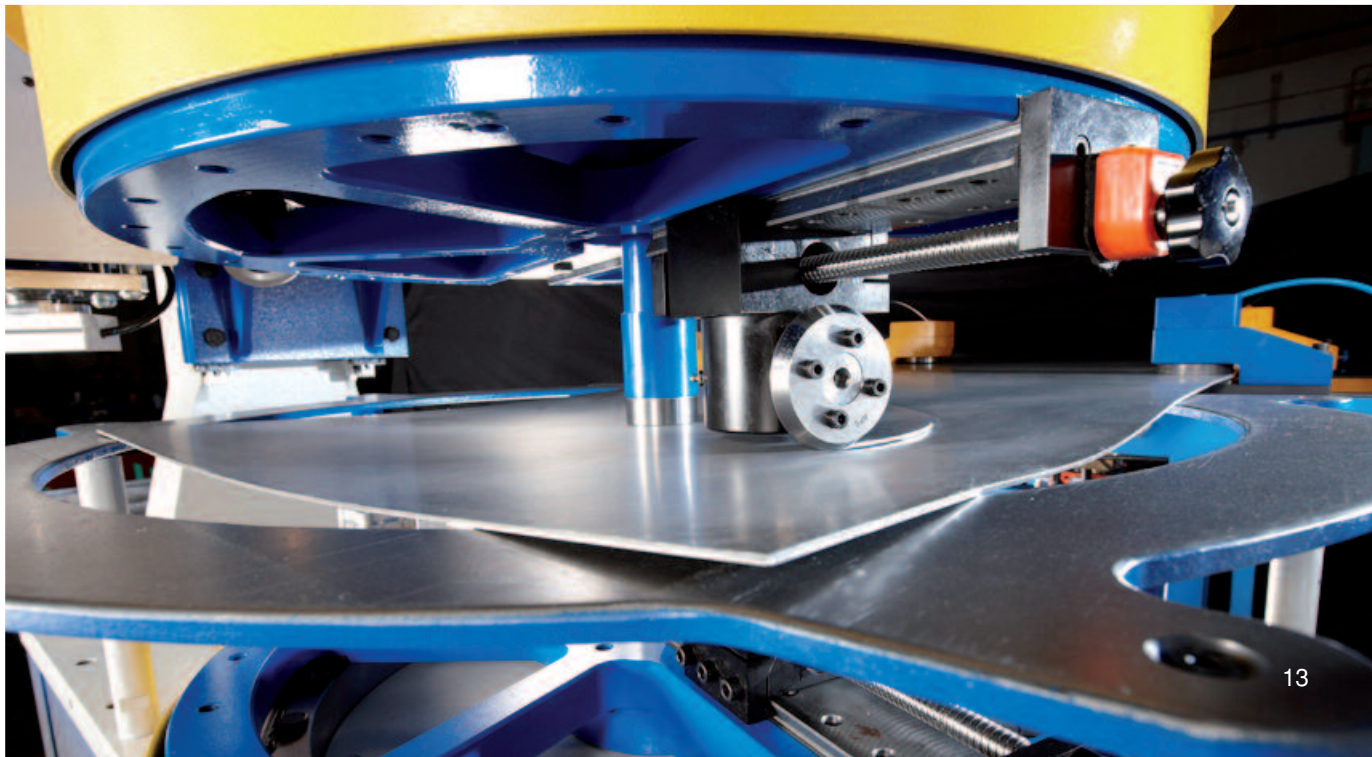

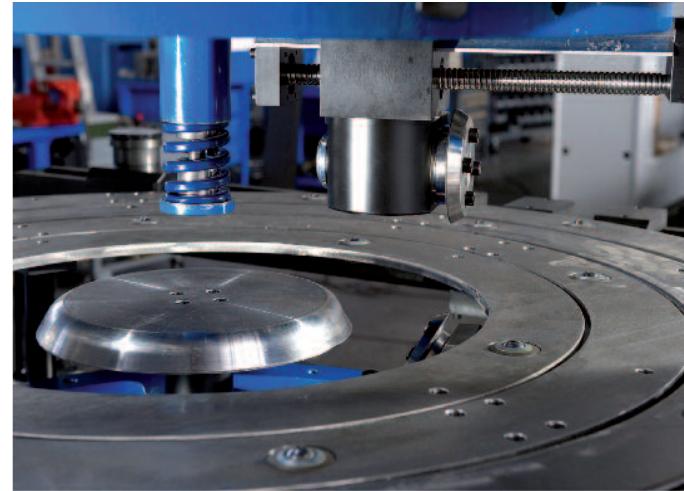

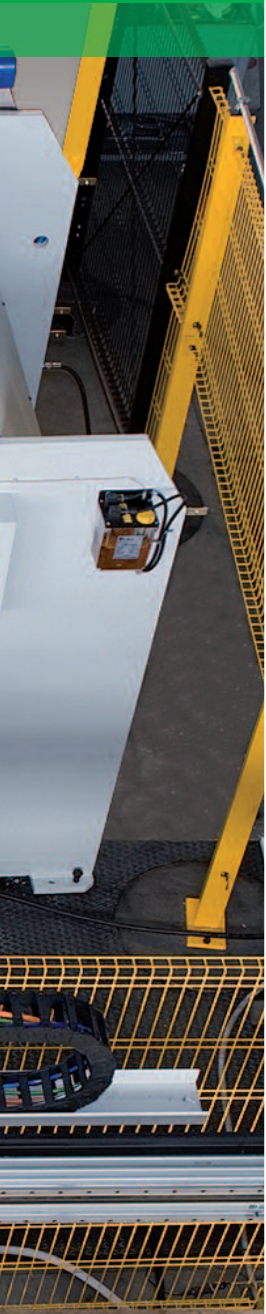

Precision and quality
are our philosophy

Automatic lines for disk cutting from coil

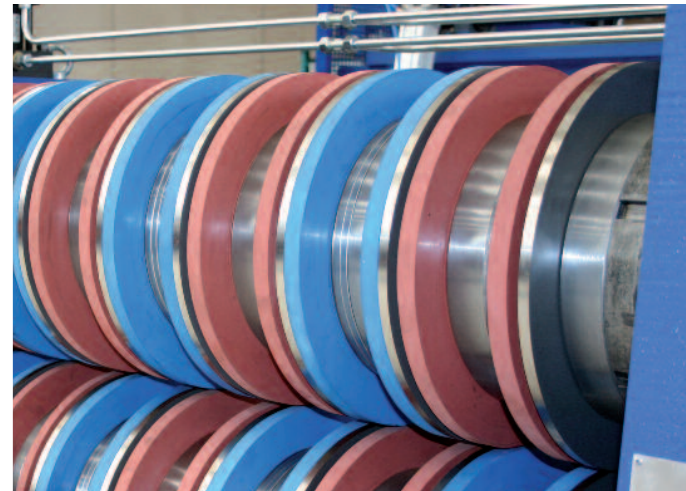

Nothing great in the world has been done
without the power of the mind

Cut to length and Slitting Lines

More than 50 years of experience
at your service

GB We manufacture standard and special equipment for presses and coil lines to meet specific customer specification. GREEN LINE program includes:

- Equipment for presses
- Equipment for presses and coil lines
- Line for presses with end-joining system
- Feed line for lamination
- Feed line for thick strips
- Feed line for high-strength steel
- Automatic lines for disk cutting
- Cut-to-length line
- Strip cutting line
- Lines with Laser Technology
- Destacker and Stacker

D Wir sind Hersteller von Pressenausstattungen sowie von Standard-und Sonder Coilbandanlagen gemäß Kundenspezifikation. Das Programm der GREEN LINE enthält:

- Pressenausstattungen
- Standard-und Sonder Coilbandanlagen
- Bandanlagen für Pressen mit automatischem Bandendenschweißsystem
- Bandanlagen für magnetische Bänder
- Bandzuführanlagen für dicke Bänder
- Bandanlagen für hochfeste Stähle
- Automatische Linien für Rondenschnitt
- Platinenschneidanlagen
- Streifenlängsteilanlagen
- Anlage mit Lasertechnologie
- Destacker und Stapler

I Siamo costruttori di equipaggiamenti per presse e linee per coil standard e speciali secondo le specifiche dei clienti. Il programma GREEN LINE comprende:

- Equipaggiamenti per presse
- Linee per coil standard e speciali
- Linee di alimentazione con sistema di giunzione nastro
- Linee di alimentazione per lamierini magnetici
- Linee di alimentazione per grossi spessori
- Linee di alimentazione per acciai altoresistenziali
- Linee automatiche per il taglio dei dischi
- Linee di taglio in fogli
- Linee di taglio in strisce
- Linee con tecnologia Laser
- Destacker e impilatori

F Nous produisons des équipements pour presses et lignes pour bobines standard ou réalisées selon les spécifications de nos clients. Le programme GREEN LINE comprend:

- Équipements pour presses
- Lignes pour bobines standard et spéciales
- Lignes d'amenage avec système de jonction de bande
- Lignes d'amenage de tôles magnétiques
- Lignes d'amenage pour de grandes épaisseurs
- Lignes d'amenage pour acier à haute résistance
- Lignes automatiques pour la découpe de disques
- Lignes de découpe en feuilles
- Lignes de découpe en bandes
- Lignes avec technologie laser
- Désempileurs et empileurs

E Somos fabricantes de equipamientos para prensas y líneas para bobinas estándar y especiales según las especificaciones de los clientes. El programa GREEN LINE incluye:

- Equipamientos para prensas
- Líneas para bobinas estándar y especiales
- Líneas de alimentación con sistemas de unión chapa
- Líneas de alimentación para chapa magnética
- Líneas de alimentación para grandes espesores
- Líneas de alimentación para aceros de alta resistencia
- Líneas automáticas para el corte de discos
- Líneas de corte para formatos en hojas
- Líneas de corte longitudinal
- Líneas con tecnología Láser
- Destacker y apiladores

и специальных согласно требованиям Клиентов. Свяжитесь с нами, чтобы получить новый каталог и предложение в соответствии с Вашими потребностями.

Посетите наш сайт: www.millutensil.com Программа GREEN LINE включает в себя:

- 1 ■ Оборудование для прессов
- 2 ■ Линии для рулонов металлических листов стандартные и специальные
- 3 ■ Линии подачи с системой соединения ленты
- 4 ■ Линии подачи для магнитных листов
- 5 ■ Линии подачи для больших толщин
- 6 ■ Линии подачи для высокопрочной стали
- 7 ■ Автоматические линии для резки дисков
- 8 ■ Линии резки на листы
- 9 ■ Линии резки на полосы
- 10 ■ Линии с технологией Laser
- 11 ■ Раскладчик и укладчики

TR Mü teriye özel ve standart pres besleme, rulodan boy kesme-dilme hatları üretmekteyiz.
YE L HAT ürünlerimiz:

- Pres ekipmanları
- Pres ve rulodan sac i leme hatları
- Rulo birle tirmeli pres besleme hatları
- Laminasyon pres besleme hatları
- Rulodan kalın sac besleme hatları
- Yüksek mukavemetli çelik sac pres besleme hatları
- Otomatik disk kesme hatları
- Boy kesme hatları
- Dilme hatları
- Lazer kesimli hatlar
- stifleme sistemleri

PRC 我们为冲床及卷料线配套各种标准及特殊设备,以迎合个别客户的实际需求。
GREEN LINE (绿线系列) 包括以下各种设备

- 冲床适用设备
- 冲床及卷料线适用设备
- 冲床适用含端口接驳装置的开平线
- 复合卷料送料线
- 厚板卷料送料线
- 高强度钢卷料送料线
- 圆板切割自动化生产线
- 卷料横切线
- 卷料纵剪分条线
- 具备激光技术的生产线
- 卸码垛机及码垛机
